Dear Student/Parent:

I am sending you this letter to update you on summer school, your fall program and other important information.

1. We want to make sure your program is accurate so we have enclosed a copy of the updated courses you will receive in the fall. Please check it carefully. In the event that a change must be made, you may circle the wrong course and add the new one. We will make the change for you if appropriate. Please include your telephone # and e-mail address (both parent and student) so that we may communicate with you should there be a problem with your program.

Return to: Ms. VonOhlen, Office of Admissions
The Bronx High School of Science
75 West 205th Street
Bronx, New York    10468

2. If for any reason you will not be attending Bronx Science in September, please return the “Notification of Enrollment in an Alternate School” form enclosed to Ms. VonOhlen at the address above.

3. Summer School – You will find a summer school offering and registration form enclosed.
   (a) Summer school begins on July 5, 2005, and ends on August 17, 2005.
   (b) Students are expected to attend every day during summer school. Absence for more than 3 days will result in dismissal from summer school.
   (c) The classes you take in summer school are high school classes and will be on your high school transcript. The math and A.P. World History class are pass/fail classes. You will receive a numeric grade for art, music and health. These grades will be part of your high school permanent record.

Advantages of Attending Summer School
   (a) If you want to advance beyond M$1 in math or are taking A.P. World History, these summer school courses are highly recommended.
   (b) If you take art and music during the summer, you will have a free period during your freshmen year which will make freshmen year a little easier. (These classes will be dropped automatically from your September program at the end of the summer.) You will also be able to take health education which will give you a free period during one term of your junior year (a very important year).
   (c) When you start in September you will know some students, some teachers and how to get around the building.
It is your choice! Summer school is not mandatory but is highly recommended especially if you are taking Advanced Placement Social Studies.

How to Register for Summer School
1. Read the summer school registration form carefully.
2. Complete the summer school registration form.
3. Select program 1, 2, 3 or 4 depending on what you want to take.

The Summer School Bell Schedule (Tentative)
(a) Summer school runs from July 5, 2005 to August 17, 2005
(b) There are 3 periods

<table>
<thead>
<tr>
<th></th>
<th>Time</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>8:10 to 9:40 a.m.</td>
</tr>
<tr>
<td>2</td>
<td>9:45 to 11:15 a.m.</td>
</tr>
<tr>
<td>3</td>
<td>11:20 to 12:50 p.m.</td>
</tr>
</tbody>
</table>

Breakfast and Lunch are available in the cafeteria.

Camp Science
Camp Science will be held on Wednesday, August 31, 2005 from 9 a.m. to 1 p.m. On this day you will have your I.D. photo taken, speak to teachers, meet students who will be in your classes, learn about the expectations for your classes, attendance and rules and regulations etc. You will also receive your official program for September.

Camp Science is recommended because it will make your transition as a freshmen easier.

Questions
Questions about specific subject areas or courses should be directed to the appropriate Assistant Principal or department supervisor.

Questions about summer school or Camp Science may be directed to me at 718-817-7711. You may also check the Bronx Science website at bxscience.edu.

Sincerely,

Stephen Kalin
Assistant Principal
